## AMATEUR PHOTOGRAPHERS

### DEVELOPING.

Post or bring your roll films, film packs, and glass plates to us for development.

### PRINTING.

We will make prints for you in any desired process. Our rates are reasonable, and we pride ourselves on the high-class work produced here. Bring your negatives to us.

### ENLARGING.

Enlargements are splendid for home decoration and for presentation. Very often a negative that prints poorly will enlarge to advantage. The cost is trifling.

We specialise in securing the best results and make a feature of prompt deliveries. We also undertake retouching and finishing in black and white.

When you send films to be developed and printed

be very careful to write your full name and address on the packet. We receive many packets without details, and have considerable difficulty in tracing the owners.

Price Lists sent on application.
